# Your care, closer to home

Transferring to the Northern Hospital, Epping

The Royal Children's Hospital (RCH) can be a very busy place and we have to prioritise care for the most seriously injured and sickest children.

We have partnered with the Northern Hospital Epping so children from the north-west who no longer require our specialist care can be transferred to the Northern Hospital to be cared for closer to home, in your local community.

Your RCH healthcare team will speak to you about transferring the remainder of your care closer to home and will arrange your transfer to the Northern Hospital.

By transferring to the Northern Hospital you will be cared for closer to home in your local community and there will be more space at the RCH to care for critically ill children needing specialist medical care.
