

Help us help you!

Northern Health's Respiratory Department wants to provide the best quality care that you and all of our community need. To do this, we need to hear your voice.

We need **ten people** who would be willing to be involved in *contributing their ideas* to make sure the care we provide and research we conduct meets patients' and carers' needs and ensures that they are actively involved in decisions about their care.

Clinical skills are not required – just a willingness to help improve our systems.

Support and training will be provided

Meetings will occur via teleconferencing.

If interested in helping, contact: **Sherrilyn Ballard**, Consumer Participation Coordinator

Phone: 9495 3313

Email: consumerparticipation@nh.org.au
