

Intensive Care Nursing

Learn to critically think and reason whilst providing high quality holistic care to critically ill patients requiring advanced life supporting therapies such as mechanical ventilation, advanced haemodynamic monitoring, renal replacement therapies and intra-aortic balloon pumps.

Northern Health's new state of the art Intensive Care Unit opened in early 2019. Consisting of 18 beds seeing over 1600 admissions per year and growing. This unit provides care to those in our community with acute and critical illness and is staffed by qualified critical care nurses and intensive care specialists

The Graduate Certificate in Critical Care Nursing is undertaken in partnership with University of Melbourne
