

Research Week 2020 Oral Presentations

Oral Presentation session #3
Wednesday 7 October 2020
12.30-1.30pm

Presenter: Dr Rebecca Jessup

Topic: How do health consumers interpret and apply health information during a pandemic?

Bio: Dr Rebecca Jessup is the Allied Health Research Lead at Northern Health, and her research interest areas include health literacy and communication, health equity, and alternative models of service delivery to improve health system sustainability.

Presenter: Dr Robert Phan

Topic: The effects of COVID-19 lockdown on Plastic and Reconstructive Surgery emergencies – can we do better?

Bio: Rob is currently an unaccredited Plastic and Reconstructive Surgery Registrar.

Presenter: Dr Alistair Tinson

Topic: Assessment of healthcare workers' mental health during COVID-19 at a large tertiary hospital

Bio: Dr Alistair Tinson is a current BPT3 at Austin and Northern Health, and will be returning as a Geriatrics Advanced Trainee in 2021.

Presenter: Dr Paul Viray

Topic: Early removal of index COVID-19 positive resident in residential aged care – a recipe for success?

Bio: Paul is the Residential In-Reach (RiR) Advanced Trainee Registrar that has been involved in the Residential Aged Care Facility (RACF) COVID-19 outbreak response within the Northern Hospital's catchment area.
